

**Dr. Domingo Martín**

Dr. Martín graduated in Biology from the University of Southern California (1970 - 1974), in Medicine from the University of the Basque Country (1975-1982), in Dentistry from the same University (1982-1984) and as an Orthodontist from the University of Valencia (1984-1987) Having completed his orthodontic studies, he took a two-year post-graduate course, obtaining the Orthodontics and Functional Occlusion Diploma from the Roth-Williams Foundation in San Francisco, California (1987-1989). He is also a Member of the Angle Society of Europe. He has been running a private orthodontic practice in San Sebastián ever since.

**Dr. Renato Cocconi**

Dr. Cocconi attended the 3 years postgraduate program at the Department of Orthodontics of the University of Milan where he obtained his master degree in 1993. He spent 2, 1/2 years in the United States where he worked in L.F. Andrews' office in San Diego and attended the 2 years Roth Williams postgraduate course in Burlingame (CA) in 1991-1993. He has cooperated with Terry Tanaka at the USC facial pain. He is currently clinical professor at the Department of Orthodontics of the University of Milan and his private practice is in Parma where he lives. He is responsible of the Roth Williams group in Italy and he has lectured to the main European and American Orthodontic Societies. He is member of the EOS, AAO, SIDO and active member of the Angle Society of Europe.

**Dr. Marc Geserick**

Dr. Geserick finished dental school in 2000 followed by clinical trainee ships at the University of Oklahoma, USA, the University of Peradenija, Sri Lanka and the Tsurumi University in Japan. He did his postgraduate studies in Basel and Los Angeles. Dr. Geserick owns a private practice in Ulm, Germany. Dr. Geserick has written several articles and has lectures internationally.

**Dr. Stefano Troiani**

Dr. Troiani earned his degree in Dentistry at University "La Sapienza" in Rome. He received his diploma of specialist in orthodontics at the Royal Dental College, Århus, Denmark. Dr. Troiani trained for 2 years at the Roth-Williams postgraduate Course in Italy with Dr. Cocconi. Dr. Troiani owns an orthodontic practice in Denmark and Germany and he is a consulting orthodontist at the maxillo-facial surgical department of Odense University Hospital (Denmark). Dr. Troiani has lectured at several international courses.

**Dr. Claudia Aichinger**

Dr. Aichinger holds a dental and medical degree from the university of Innsbruck, Austria and received her orthodontic education in the Lawrence F. Andrews Foundation from 1990-1993. She attended the 2 years Roth Williams postgraduate course in Burlingame (CA) from 1995-1997. Dr. Aichinger is in private practice in Vienna, Austria. She is a member of the Angle Society of Europe, the European Board of Orthodontics, the Austrian Board of Orthodontics, and the International College of Dentists

**Dr. Elisabetta Grendene**

Dr. Grendene graduated in Dentistry from the University of Verona in 1999/2000. She completed the orthodontic postgraduate program at the University of Milan in 2006. She collaborates with the Dental Institute and the department of Maxillo-facial surgery at Policlinico G.B. Rossi, director Prof. Pier Francesco Nocini. She runs her private practice in Verona, Italy. Dr. Grendene is a member of Sido (Italian Society of orthodontics), World Federation of Orthodontists and Roth Foundation. She is a tutor in the 2-year Roth-Williams clinical orthodontic program held by Dr. Renato Cocconi.

**Dr. Guido Ranieri**

Dr. Ranieri earned his degree in Dentistry from the University of Bari. He completed the Master program in Orthodontics at the Stomatology Department of Bari University in year 2001 and got his postgraduate education in Orthodontics at the University "Cattolica" of Rome. Dr. Ranieri attended the "Two-Year clinical orthodontic program" from the Roth-Williams foundation in 2004-2005 and attenden the 2-years "Orthodontic and Orthognatic surgery: concept in excellence", held by Dr. Arnett, Tanaka, Hatcher, Shendel, Cocconi and Raffaini. He is an instructor at the Face courses held in Italy. Dr. Ranieri is a full member of SIDO (Italian society of orthodontics)

**Dr. Andrea Compri**

Dr. Compri graduated in Medicin in 1986 and earned his postgraduate certification in Odontology in 1991. He attended the master program "New Eppet Edgewise Tweed technique" in 1989, the "Tweed course" and the "Charles Tweed International foundation for orthodontic research" in Tucson in 1990. Dr. Compri attended the Excellence in orthodontics program from the Roth-Williams foundation. He is a member of IBO (Italian Board of Orthodontic) and works at the Department of Maxillo-Facial surgery at Ospedale Civile Maggiore in Verona, Italy.

**Dr. Morten G. Laursen**

DDS. Certified Specialist in Orthodontics. Dr. Laursen received his postgraduate degree in Orthodontics from the Department of Orthodontics, Aarhus University, Denmark, where he currently is clinical assistant professor. He has a private orthodontic office in Aarhus and is associated to the public orthodontic service in Silkeborg, Denmark. Dr. Laursen has lectured in international orthodontic courses since 2006

**Gianluca Della Tana**

Founding member of the Italian Academy of Orthodontics Technique (AIOT). Specialized on the gnathological Tooth set up for Positioner in 2001 in the United States at the laboratories AAO of Racine (Wisconsin) and Interamerica Lab in San Rafael (California). Specialized for the construction of DBI MAGO (San Sebastian, Spain, in May 2007). Technical Instructor since 1989 in the courses for Orthodontists (RWC Courses) with Dr. Roth, Dr. Williams and Dr. Cocconi.

FACE
UNIVERSITY
ALPE ADRIA
CONTINUING ORTHODONTIC EDUCATION

PROGRAM

Dear colleagues!

It is our great pleasure to invite you to "FACE University ALPE ADRIA continuing ORTHODONTIC education". This programme is specially designed for orthodontists and postgraduate students of orthodontics. The two year programme is organized by the Medical University of Graz, University of Zagreb and University of Ljubljana

The course will be given by worldly renowned lecturers and speakers Dr. Domingo Martin, Dr. Renato Cocconi, Dr. Marc Geserick and Dr. Stefano Troiani. Practical and theoretical aspects will be covered.

The objectives of the course are to learn the fundamentals of the Roth Williams philosophy, to apply the obtained knowledge in our day-to-day practice and to help us obtain our treatment goals which are the following:

1. Dental and facial aesthetics
2. Functional occlusion and TMJ health
3. Periodontal health
4. Stability
5. Airway
6. Resolved patient's chief complaint.

Thorough and accurate diagnostic records, detailed study and a comprehensive treatment plan can also yield shorter treatment times, better results and improved stability. The FACE treatment philosophy trains orthodontists how to implement this distinguished treatment process.

To be able to obtain our goals the lecturers will instruct us on how to use specific instruments such as articulators and splints. Clinical demonstrations will be held and students of the course will be instructed in the appropriate use of instruments.

The FACE University ALPE ADRIA continuing ORTHODONTIC education programme includes 8 sessions, each session lasts 2 days. Between the sessions students are asked to do some additional work which will be shared with all the participants in the succeeding session.

9-10 march 2013 Ljubljana Domingo Martin – Stefano Troiani

Presentation of the course
Introduction to the Face-Roth philosophy of treatment

17-18 may 2013 Zagreb Stefano Troiani – Gianluca della Tana

Orthodontic records
Basic biomechanic of tooth movement
Introduction to straight wire
Brackets placement and indirect bonding

13-14 september 2013 Graz Stefano Troiani – Marc Geserick – Guido Ranieri

The temporomandibular joint
Co/Cr relation, articulator mounting
Cephalometry

15-16 november 2013 Ljubljana Stefano Troiani – Elisabetta Grendene

Diagnosis and treatment planning
Biomechanics and appliance selection

31 january – 1 february 2014 Zagreb Stefano Troiani – Andrea Compri

Interceptive treatment

21-22 march 2014 Ljubljana Stefano Troiani – Claudia Aichinger

Biomechanics: choice of archwire
Biomechanics: asymmetries
Biomechanics: deep bite
Biomechanics: impacted canines

16-17 may 2014 Zagreb Stefano Troiani – Morten Laursen

Use of TADS
Biomechanics: space closure
Biomechanics: vertical control
Biomechanics: transversal control
Finishing

13-14 september 2014 Graz Renato Cocconi – Marc Geserick – Stefano Troiani

Interdisciplinary treatment
Orthodontics and orthognathic surgery
Conclusion of the course

**FACE University ALPE ADRIA continuing ORTHODONTIC education
March 2013 – September 2014**

REGISTRATION FORM
